SOFTWARE DEVELOPMENT EXPERIENCE/PROJECTS

github.com/JaxxonCrowe

WeCanCodeIT, Cleveland, OH
Software Development Student, Fall 2021

Pet Health Tracker:

Designed Node JS application that lets users keep track of their pet(s)' health records, vet information, monthly weight log as well as appointments via Google API which will send out a reminder when it's time for the appointment.

◆ Node JS, Java Script, C#, HTML, CSS, Visual Studio & Code, Git, Github, GitBash, OOP

Fink Ployd Album Collection:

Designed Node JS application that lets users search an album collection, add to and edit from the collection and also delete entries from the collection on the level of the album and artist. Users may also leave a review and see lists of songs and reviews for each album.

◆ Node JS, Java Script, C#, HTML, CSS, Visual Studio & Code, Git, Github, GitBash, OOP

Donut Maker:

Designed console game application that lets users buy donuts, autoclickers and donut multipliers. The autoclickers automatically buy the donuts on a set interval and the multipliers increase the rate of donut making per multiplier owned. The cost for the autoclickers and multipliers go up with each purchase and there must be enough donuts in stock to purchase each of these items.

◆ Java Script, HTML, CSS, Visual Code, Git, Github, GitBash, OOP

Run Time Terrors Haunted Houses:

Designed an application that lets users review Haunted Houses in Ohio. It includes add/display details/edit/delete functions for the haunted houses and has rolling fog on the console over the background image.

◆ C#, MVC, Java Script, HTML, CSS, Visual Studio, Git, Github, GitBash, TDD, OOP

PROFESSIONAL EXPERIENCE

Naturepedic, Chagrin Falls, OH (Dec 2009 to Mar 2020)

Marketing & Sales Finance & Fulfillment Manager
