EXPERIENCE

Mission Love

June, 2019 to Present

DIRECTOR

- Incorporated the ministry and registered it as a 501c3 organization
- Created and enforce the ministries Bylaws
- Build and maintain ministry websites using HTML / CSS
- Implemented the use of Google Workspace, Song Select, and the Music Stand app to improve collaboration and communication of team members
- Lead the board of directors
- Prepare financial statements and file paperwork to maintain the organization in compliance
- Maintained networking relationships through Email, phone calls, and newsletters with donors and those utilizing our services
- Helped volunteers find value in their lives and in what they have to offer through encouragement and providing an outlet for their creativity

Medina Coutny

August, 2013 to Present

MAINTENANCE TECH

- Developed and implemented technology updates for multiple departments 2 to 4 times per year
- Developed and implemented an adaptable training system to train a crew of 12 as well as new hires with a 100% success rate.
- Communicated with management as a mediator for disputes and grievances and negotiated contracts every 2 years on behalf of the team
- Assisted in the development and implementation of a safety program that reduced the injury rate in the maintenance department by 33%

SKILLS

Java • Spring • Thymeleaf • JavaScript • MVC • HTML • CSS • TDD • Agile (Scrum) • Object Oriented Programming (OOP) • JSON • React • REST APIs • Responsive Design / Mobile • Relational Databases • Source Control / GitHub

PROJECTS

UnBoxed Thoughts:

A mental wellness tracker to help you and your therapist understand what is triggering your symptoms and what coping skills are helping. You can add reminders and journal entries.

JavaScript, Node.js, JSON, HTML, CSS, GitHub, TDD, MVC, REST APIs, Java, Spring Boot, Agile / Scrum

Donut Maker:

Based on the hit game Cookie Clicker. The game allows the user to click a button to generate donuts, after earning enough donuts the user can purchase multipliers and auto clickers.

JavaScript, HTML, CSS, TDD, GitHub, Node.js

JAC Adventures:

A full stack application to allow JAC island hopping adventures to better their customer experience by allowing them to search for their next adventure.

Java, TDD, Thymeleaf, HTML, CSS, MVC, Spring Boot, Relational Databases, GitHub, Agile / Scrum

EDUCATION

We Can Code IT

Certificate of Software Development 2022
