We Can Code IT, Cleveland, OH

Software Development Student, 2021

Review-site for art: *Java, Visual Studio, Git, Github, GitBash, TDD, OOP, MVC, Spring Boot.*

- For this project, we compared related art works from different eras.
- Users can submit a review and create hashtags which would be saved on the h2 database.
- We added a functionality for the average rating for art.

Student Management system: *HTML, CSS JavaScript, Java, Visual Studio, Git, Github, GitBash, TDD, OOP.*

- Designed a web application that keeps track of student's classes and records.
- Students will have the option of changing their schedules in a way that resembles how modern institutes give their courses.
- Students can add,remove, and update classes using MVC.

Final project -iorganize: *HTML, CSS JavaScript, Java, Visual Studio, Jason,Github, GitBash,*

- We designed a web application that allowed users to organize their daily tasks from groceries, kitchen,medications and any other tasks they would like to organize.
- I was in charge of the search pages and some of the styling for the css.
- Exception handling- To ensure normal flow of the application can be maintained.
- Made our css clean so our pages run fast and smoothly.

Personal professional portfolio: *HTML, CSS JavaScript, Java, Visual Studio, Git, Github, GitBash, TDD, OOP*

- I designed my personal portfolio in a way that is well programmed and showcases the critical skills that I have.
- The website is fully functioning and stands out amongst the competition.
