- Relevant Coursework- Engineering Ethics, MATLAB, Java

May 2023

We Can Code IT

Columbus, Ohio

- Full-Stack Software Development Certification
- Full-stack development course focusing on Java, HTML, CSS, JavaScript, Spring Framework

April 2022

PROJECTS

Review Site: Java, MVC, SpringBoot, Thymeleaf, SQL, HTML, CSS

- Maintained all the data in JSP and used SQL Server to load the tables.
- Prepared all the necessary documents for the Spring Framework and JSP for the project.
- Assist and maintain the project management process for a web application.

Album Song API: Java, MVC, JavaScript, JSON, HTML, CSS, SpringBoot, RESTful APIs

- Assisted and developed the creation and implementation of new features, including the use of RESTful APIs.
- Coordinated multiple project phases, from concept to implementation and final product.
- Participated in the team to implement a Git-driven environment.

Wordle Clone: JavaScript, HTML, CSS

- Designed and developed an open-source clone of the popular online guessing game Wordle.
- Provide the user with 5 letters and 6 tries to get the randomly generated word.

Donut Clicker: JavaScript, HTML, CSS

- Designed and developed a donut clicker game inspired by the famous cookie clicker game.
- Designed a simple clicker-based game where you click the donut to obtain money and buy better upgrades!

Contact Manager: React, CSS, JSON

- Designed a react application where the user can add a contact, delete, update and search for a contact.
- For storing the data I used a JSON server that is connected to the application.

WORK EXPERIENCE

Meditation Start-Up

Columbus, Ohio

Software Developer

January 2022-Present

- Built a web-based application using JavaScript, HTML, CSS.
- Designed and developed a meditation application where you can pick your settings.
- Provide user-centered web development and application support for the meditation app.

G4S/Allied

Columbus, Ohio
