Spending time with my cats

EDUCATION

We Can Code It - 2022

Certificate of Software Development

- WCCI in an intensive 14-week full-time software development bootcamp in Ohio that teaches the core principles of full-stack development in an accelerated curriculum.
- Projects are assigned and completed in both individual and team-based settings.
- Focus on Java as the core language while also incorporating JavaScript, Thymeleaf, SQL, HTML, CSS, REST API integration, Spring Framework, and project management/version control through GitHub.

SOFTWARE DEVELOPMENT PROJECTS

Seed & Feed: *Java, Visual Studio, GitHub, GitBash, JavaScript, HTML/CSS, Spring, SPA, API, Heroku*

- Single Page Application for gardeners to find information on some common plants (plant height, sun, and recipes).
- Dynamic dates for indoor and outdoor planting based on the user's Zip Code leveraging a nested API call.
- Built on Spring and using JavaScript to dynamically populate fields and API data.

"The Domesday of The Daughters of Eleon": (WIP) *Java, Visual Studio, GitHub, GitBash, Access, SQL, Excel, JavaScript, HTML/CSS, Heroku*

- Dungeons & Dragons economic simulator incorporating both foodstuffs and goods.
- Based on real world historical data designed to be dynamic and tailored to a user's specific needs
- Data programed to account for environmental variables selected by the user (geography, time-period, weather events).
- Long term personal project started in excel and developing into a web application.

Project Adagio: *Java, Visual Studio, GitHub, GitBash, JavaScript, HTML/CSS, Spring, SPA*

- An album review site for viewing, rating, commenting on albums and songs
- Ability to add, delete, and modify songs and albums.
- Built on Spring with JavaScript to implement a dynamic SPA.

The Path of Art: *Java, Visual Studio, GitHub, GitBash, JavaScript, HTML/CSS, Spring, SPA, Thymeleaf*

- Web Application of selected French Impressionism artists and their painting.
- Built on Spring and Thymeleaf to dynamically populate pages with information, pictures, and the ability to add reviews and ratings.

WORK EXPERIENCE

Freelance Computer & Phone Technician. Cleveland, Ohio

2013 to present

- Advise older clients on how to use computers and smart phones, including basic functions, theory, and hierarchy theory.
- Ability to clearly convey high-level concept in simple and easy to follow ways, including creating detailed written and visual instructions.

Cleveland Pride Inc. (501(c)3 nonprofit), Cleveland, Ohio

2014 to 2017

Event Manager, Operations Manager

- Designed, developed, and executed annual outdoor Parade, Rally, and Festival for 25,000+ participants.
- Created and implemented automatically generated forms, contracts, and letters with cohesive branding, while reducing the number of man-hours spent on each document.
- Responsible for a budget of over \$100,000 and keeping all spending within budget constraints while simultaneously ensuring key spending metrics for the next year stayed within projected margins.
- Nominated and elected to two consecutive terms as Vice President and Chief Operating Officer.
