PROJECTS

Virtual Pet Shelter

Java console application that allows the user to create their own virtual creature and interact with it in various ways. This project went through multiple iterations, starting with a single pet. This was then built upon to add functionality for multiple pets and species, each with their own needs for care.

Adagio Album Collection

Single-page-application website that displays a music album library. Users can add or delete their own albums or songs, and leave comments/reviews that are stored and displayed. Full-stack MVC site built with HTML/CSS/JavaScript with RESTful API and Java/Spring, JPA, H2 database.

Donut Maker

A Cookie Clicker inspired game, fully in-browser game that utilizes Javascript to allow the player to click a button that dynamically increases score. Includes the ability to increase base multiplier of score gained per click, as well as Auto-Clickers, which will automatically increase score on a set interval, both enabled by Event Listeners. Built with HTML/CSS/Javascript.

EDUCATION

We Can Code IT —Certificate of Software Development

January 2022 - Present

WCCI is an intensive Full-Time software development bootcamp in Columbus, Ohio that teaches the core principles of full-stack development with a Java focus, in an accelerated curriculum, spanning 14 weeks.

Projects are assigned in both individual and team-based settings.

SKILLS

Java, Spring, Git, HTML, CSS, Javascript, OOP, MVC, TDD, Relational Databases, JSON, Source Control/Github, Responsive/Mobile Design

WORK HISTORY

Lewistown Hospital - Monitor Technician (Lewistown, PA)
June 2015 - Jan 2017; Aug 2021 - Present

Interpreting and monitoring patient cardiac rhythms, up to 63 patients at a time. Document updates physically and within cloud-based EMR (EPIC). Analyze data with the caregiving team to make conclusions and develop treatment plans.

Superior Trim - Quality Manager (Springfield, OH) Aug 2018 - March 2020

Oversaw a team responsible for auditing part quality, received goods, nonconforming material management. Executed QC tests, documenting issues for analysis and resolution with upper management. Developed and implemented a plan for damaged inventory to prevent over $200,000 in losses annually.

Volunteer Work

Autism Society of Greater Akron
iCan Bike Camp, 2014
Assisted campers while they learned to ride a bike.
