## SOFTWARE DEVELOPMENT EXPERIENCE/PROJECTS

[<https://github.com/zm102905>]

We Can Code IT, Columbus, OH

### Software Development Student

2022

Designed, developed, and tested, interactive applications in collaborative team-based and independent settings, demonstrating ability to work through complex problems.

- **Reviews Site:** Used MVC architecture and spring boot to create a web app that displays reviews for popular budget and mid-range spinning fishing reels. **Java, CSS, HTML, MVC architecture, Spring Boot, Git, GitHub**
- **Bird Watchers JPA:** Used MVC architecture, spring boot, and JPA in a team environment, to create a website that shows different bird watching packages and information about bird watching. **Java, CSS, HTML, MVC architecture, Spring Boot, JPA, Relational Databases, OOP, Git, GitHub, Agile/Scrum methodology**
- **JAC'S Twitchers SPA:** Collaborated with a team to create an educational single page application for children ages 6-13, that promotes an interest in science. This site focuses on oceanic wildlife and the solar system. **Java, Javascript, React, CSS, HTML, Spring Boot, JSON, Relational Databases, OOP, REST API, Git, Github, Agile/Scrum methodology**
- **Footopolis:** Collaborated with a team, to create a React single page application, that serves as a one stop resource for foot care. This was my final project at WCCI coding bootcamp. It describes, provides symptoms, treatment information, and recommends products for various foot-related conditions. A podiatrist locator page helps users find a local podiatrist. A diagnostic quiz was also provided to help narrow down the cause of the symptoms they are experiencing. **Java, Javascript, React, CSS, HTML, Spring Boot, JSON, Relational Databases, OOP, REST API, Git, Github, Agile/Scrum methodology**

## EDUCATION & TRAINING

### We Can Code IT

Certificate of Software Development

2022

### Ohio University Athens, Ohio

Bachelor's of Specialized Studies

2009
